The Devil's Arithmetic

Hannah dreads going to her family's Passover Seder. Her relatives always tell the same stories and Hannah's tired of hearing them talk about the past. But when she opens the front door to symbolically welcome the Prophet Elijah, she's transported to a Polish village - and the year 1942. Why is she there? Who is the "Chaya" that everyone seems to think she is? Just as she begins to unravel the mystery, Nazi soldiers come to take everyone in the Village away. Only Hannah knows the unspeakable horrors that await.

Each student will be given a course outline package in September.

Have a great summer!
