

Student Permission to Use the Internet

Consent

Student Name _____

Access the Internet
Create an E-mail Address
Publish Projects/Homework

In an effort to keep up with technology and help save paper the computer department and eighth grade is requesting the parent give consent for their child to use the internet for advance learning in technology. If permission is therefore granted by the parent, the student will be given an e-mail address and password created by the teacher to be used for school purpose only.

The teacher's will monitor the students' at all times while assessing the internet and opening their e-mail via the internet.
